Notes: This data is from state/federal reports which utilize a census date. Only those actually on the payroll at that date are included.

Employees funded by grants and auxiliary budgets are included in this report. The "Less Externally Funded Positions" line is actual 1998-2005, estimated prior to 1998.

Definition changes from 2000 to 2001 resulted in the reclassification of several positions from technical to professional.
