## **FISCAL YEAR 2026 EDUCATION AND GENERAL BUDGET NARRATIVE**

### **Executive Summary**

The Education and General (E&G) Budget is the operating budget which supports the primary functions of the University including instruction, research, public service, and the various support areas. It is funded by state appropriations, student fees, and other miscellaneous sources. The FY2026 state appropriation for higher education recommended by the Governor included a 1.5% increase, however the General Assembly approved 3.0% in core additional funding. Because a line-item veto of the additional funding is a possibility, the budget has been developed with a 1.5% increase in state support. Tuition and fee income for FY2026 is projected based on level enrollment and an average increase of 4% in tuition rates. The proposed E&G budget for FY2026 is approximately \$1.6 million higher than FY2025.

### **General Budget Approach**

Major factors creating budget needs for FY2026 included the MOSERS retirement system rate increase, higher health insurance premiums, and contractual increases for services. Due to these projected cost increases and the relatively small increase in tuition income, it was essential to review all activities and expenditures. For example, several budget areas reallocated funds to cover contractual increases. Increases beyond the FY2025 base budget are minimal. Salary savings due to attrition, primarily retirements, were also utilized to offset cost increases.

### **Revenue Assumptions**

#### **General Revenue**

The base general revenue appropriation for Truman from the State of Missouri used for budget development is the 1.5% increase recommended by the Governor. Historically, the Governor withholds at least three percent of these funds as a contingency. For Fiscal Year 2026 this requires a reserve of \$1,528,095 for standard withholding. Table 1 provides a snapshot of total state revenue trends for FY2006 through FY2026 and reflects the actual funds received after all state withholding actions, including those beyond the 3% level. At \$50,936,492 the FY2026 state appropriation is the largest in history for Truman. A comparison of initial appropriations and state funds received after withholding for FY10-FY26 is found in Table 2.

### Enrollment Fees and Other Income

The Fall 2025 enrollment is projected for budget purposes with level full-time equivalent students. Spring 2026 enrollment is projected at the historical average of 90 percent of the fall semester total. Tuition and required fees for 2025-2026 increased for Missouri residents as well as for non-resident undergraduate students, and graduate students. The operating budget is based on this tuition increase which averages 4%. Sources of income in addition to enrollment fees include special fees, fines, charges for services, and interest income. Investment income available in FY2026 is projected to remain relatively stable, and support from the Foundation is projected to increase.

Note: This table excludes funds appropriated but withheld and one-time funds.

For FY10, one-time federal funds of \$756,339 are excluded.

For FY17, a one-time Autism Clinic fund excluded, and reflects extra midyear withholding.

For FY18, an additional withholding was imposed by the Governor.

For FY20, the 3% standard withholding was increased for April-June.

For FY21, restrictions were removed mid-year, except the standard 3% for state funds.

For FY26, the traditional 3% withholding is projected.

FY10 excludes one-time federal fund designated for Caring for Missourians.

FY17 excludes one-time Autism Clinic funds and reflects extra withholding.

FY26 projected based on Governor's approved appropriation minus standard 3% withholding.

## **Planned Expenditures**

### **General**

Based on projected revenues in the FY2026 Education and General budget, planned expenditures were increased by approximately \$1.6 million, from \$90.0 million to \$91.6 million. Included in the budget are funds to cover the increase in the required MOSERS retirement system contribution which impacted fringe benefit costs. The contribution rate for FY2026 increased by 5.21% to 30.25%. Approximately 67% of full-time employees are covered by MOSERS. Table 3 outlines expenditure trends by Personal Service (salaries and benefits), Equipment/Operations, and Total for the last 10 years.

### **Personal Services**

A major portion of the operating budget is utilized for salaries and fringe benefits. For FY2026, Truman is budgeting \$56.5 million in this category, or 61.6% of the total Education and General budget. This includes funds for faculty and staff salaries, student employment, and fringe benefits such as retirement, medical insurance, and social security. The breakdown for Personal Services is as follows.

Salaries	\$34,461,799
Fringe Benefits	\$16,426,410
Student Employment	\$ 3,5582,185
Total	\$56,470,394

The FY2026 budget eliminates several positions through attrition or retirements and others were reconfigured to meet current needs. Positions impacted include faculty, academic support, management, office staff, and other support staff.

### **Operations and Equipment**

The following provides a brief summary of operations and equipment trends by major segments of the campus.

1. Academic Affairs. Operations funds have been allocated to meet needs in instruction, research, and public service areas. A total of over \$5.6 million dollars in operations and equipment is budgeted in core areas including the academic departments.

Table 4 outlines academic and research equipment budgets for FY2017-FY2026 and shows the asset renewal rate for these areas. Research funding totals \$434,230 for FY2026, with most of the funds in the operations and equipment categories.

2. Student Services. Operating and equipment budgets in the Student Services category have been allocated to meet priorities in various areas. The offices and functions in this category within the Education and General budget include Admission, Athletics, Counseling, Financial Aid, Health Clinic, International Student Office, Testing and Assessment, and Registrar. Just over \$4.2 million is budgeted for equipment and operations in the student services category. This includes the funds generated by the student athletic fee. Additional Student Services areas including Residential Living, the Student Union, and Recreation Center are funded in the Auxiliary Budget and are not included here.
3. Computing and Technology. The FY2026 operating budget includes significant allocations for computing and technology. A total of \$4.2 million is budgeted for technology services which include staff, operations, equipment and maintenance of existing systems and networks, and desktop workstations on campus, and an extensive wireless network. Continued technological investment is necessary to remain competitive. For 2025-2026, technology areas are budgeted at 4.5% of the institutional total.
4. Maintenance and Repair Fund. These funds are used to meet needs such as renovations, roof replacements and upgrades to heating and air conditioning systems. Truman consistently maintained this fund through various funding cycles in order to meet renovation needs on campus. Starting in FY2021 it was necessary to balance the budget by significantly reducing this fund. In FY2026 \$500,000 is budgeted in this category to cover repair needs for facilities. Table 5 outlines trends in the Maintenance & Repair budget for FY2017-FY2026.
5. Utilities. Due to increases in utility costs and steady demand, utility budgets have been increased slightly for FY2026. Funds budgeted for utilities include operation of the

central steam plant, natural gas, water, and electricity total \$3.9 million. The Auxiliary Budget includes additional funds to cover utilities in those facilities.

6. Institutional Support. This area includes many administrative functions such as Alumni/Advancement, Business Office, President's Office, Public Relations, and other support areas. The combined operations and equipment total for this category is slightly over \$1.3 million, which includes funds transferred from the Foundation to support advancement and fundraising efforts.
7. Scholarships. For FY2026 \$17.3 million for scholarships has been budgeted to match projected expenditures for institutionally funded academic and athletic grants.
8. Student Employment. Student employment budgets are targeted at assisting students and supplementing staff in multiple areas. Funds allocated for student employment in the Education and General budget total almost \$3.6 million.

Note: Equipment budgets include significant amounts designated to cover the 3% withholding in state funds and contingency funds. The plan is to focus these funds on academic purchases should they be released during the fiscal year. This chart shows the portion of annual equipment budgets actually available for academic and research purchases. It should be noted that changes in definitions or the threshold price for equipment have also reduced this budget significantly in recent years.

## **FY2026 EDUCATION AND GENERAL REVENUE BY CATEGORY**

The page that follows provides a summary of projected revenue for FY2026 in several major categories. State funds provide 56% of the proposed budget.

Board policy calls for net tuition income not to exceed a target of 35% of the total budget. This policy has specific guidelines regarding the calculation which allow for the omission of designated or restricted fees. The policy also compensates for budgeted student aid.

Page 13 of this section provides the detail for the calculation to determine adherence to the policy for FY2026. The portion of the adjusted budget supported by student tuition is 23.6% and, therefore, is within the policy.

Table 6 illustrates budgeted sources of funds for FY2026. Trends in recent years have included increases in state funding, increases in student fees, and more revenues from other miscellaneous sources. For FY2026 a 1.5% increase in state support continued this trend. As a result, state support now accounts for approximately 56% of budgeted Education and General revenues. Table 7 illustrates trends in state support versus local revenue for the last ten years.

**EDUCATION AND GENERAL  
FY2026 REVENUE BY CATEGORY**

<u>State Revenue</u>	<u>\$50,936,492</u>
----------------------	---------------------

This represents the entire appropriation. A contingency budget of \$1,528,095 has been established for the traditional 3% standard withholding by the Governor. In recent years the 3% withholding has not been released, and the funds are not expected to be released in FY2026.

<u>Student Tuition and Enrollment Fees</u>	<u>\$38,339,916</u>
--	---------------------

FY2026 enrollment income for budget purposes is based upon a level FTE enrollment. Missouri students are assumed to make up 65% of the total enrollment; graduate enrollment is expected to be slightly higher; and summer enrollment is projected at the 2025 summer level. This category also includes fees for off-campus courses, the athletic fee, the student activity fee, study abroad programs, and other special course fees.

<u>Other Local Income and Transfers</u>	<u>\$ 2,358,143</u>

This includes various revenue sources: investments, athletic gate receipts, sales and services of educational activities (such as summer camps), rollover from FY2025, indirect costs from grants and other miscellaneous sources. Transfers from Auxiliary sources and the Foundation are also included here.

## **FY2026 PLANNED E&G EXPENDITURES BY CATEGORY**

The Missouri Coordinating Board for Higher Education and Office of Administration have developed a budget reporting structure which follows federal financial reporting standards for higher education. The broad budget categories and totals for FY2026 are as follows:

Instruction \$ 36,493,882

This includes all expenditures such as faculty salaries, operating funds and equipment which support instructional activities.

Research \$ 434,230

Activity organized to produce research outcomes is included in this category. Internal research grants, research equipment, and undergraduate research stipends are in this budget.

Public Service \$ 70,413

Non-instructional services beneficial to external groups are included in public services. Matching funds for the Upward Bound program are budgeted here.

Academic Support \$ 5,885,602

The library and academic administration are in this category. Expenses for operation of the library represent over one-half of this budget.

Student Services \$ 10,931,222

This includes areas such as student services administration, counseling services, admissions and records, intercollegiate athletics, health services, and testing services.

Institutional Support \$ 8,097,465

Support areas including fiscal operations, alumni and public relations, and general administration are in this category.

Physical Plant \$ 11,839,268

General physical plant operations, including maintenance, grounds and custodial, and public safety are in this category. Funds for fuel and utilities are also included here.

Maintenance and Repairs \$ 500,000

Funds designated for campus building repairs and preventive maintenance are in this category.

Student Aid \$ 17,352,469

Student scholarships, experienceships and athletic aid are included here.

Transfers \$ 30,000

Mandatory transfers for federal aid programs (SEOG) comprise this budget.

TOTAL \$ 91,634,551

*Note: Several significant changes in categories have been made to match the Uniform Financial Reporting Manual developed by the Missouri Department of Higher Education as well as the most recent National Association of College and University Business Officers guidance regarding classification of various functional areas.*

## **FISCAL YEAR 2026 AUXILIARY BUDGET NARRATIVE**

### **Executive Summary**

Revenue from combined auxiliary operations is projected to increase in FY2026. This estimate is based on the number housed in the residence halls as well as budgets which are tied to student enrollment such as the Student Union and Recreation Center. Occupancy levels in the residence halls are budgeted based on a comparable number to this past academic year. The rates charged to students for residence halls including room and board were increased by an average of 4% for the 2025-26 academic year, and the Student Union fee was increased by \$10 per FTE student per semester.

Several changes in operating and equipment budgets have been recommended for 2025-2026. Changes in the Auxiliary Budget for FY2026 include allocating funds to cover projected food costs, contractual increases, wage increases, as well as MOSERS contributions. Overall, the Auxiliary Budget for FY26 is slightly higher than last year.

### **General Budget Priorities**

This budget was prepared to meet priorities such as providing services to students, and activities which will provide more efficient operations. The budget for auxiliary operations must meet bond payment requirements.

### **Revenue Assumptions**

1. Residence Halls. Room and board rates were raised by an average of 4% for FY2026. A student living in a typical two-person room will pay \$11,610 for the 2025-2026 academic year. Based upon the projected occupancy rate for the fall semester and 91% returning for the spring semester and typical summer income, revenue from residence halls and apartments is projected at \$15,923,000. This includes other income such as off-campus student meal plans, rentals, and interest income.
2. Student Union. The Student Union is primarily funded by a transfer from enrollment income to this budget at a rate of \$165 per full-time equivalent student per semester. This fee was established to build, maintain, and cover debt service for the Student Union. The

Student Activity Fee helps fund the Center for Student Involvement, which is housed in the Student Union. Additional income sources include room rentals, bookstore, and food service commission. Total revenue for the Student Union Building for FY2026 is projected at \$1,113,000.

3. Recreation Center. Major expenses for the Recreation Center include personnel and operations. A designated fee of \$111 per semester per full-time equivalent student is included in enrollment fees. Debt on the Recreation Center has been retired. Total revenue for FY2026 is projected at \$635,000 for the Recreation Center.
4. Service Departments. Due to reduced volume, revenue from the auxiliary service department (Printing Services) is projected at \$229,000 for FY2026.

### **Planned Expenditures**

A significant portion of the Auxiliary Budget is utilized to operate the residence halls. Staff includes the Residential Living Office, hall directors, housekeepers, and physical plant employees assigned to these non-academic areas. Table 9 outlines Auxiliary Budget equipment trends for FY2006-FY2026. Due to reduced income, equipment replacements are funded as needed from reserve funds.

Operating funds for Residential Living include utilities, repairs and renovations, and food service contracts. Funds are included for furniture repairs, food service repairs, and general repairs to the facilities. Food service costs are budgeted to cover projected costs as agreed to in the food service contract, which is the largest single component of this budget. Utility costs are projected to increase in 2025-2026 from the current year actual expenditures and the budget reflects this. A major portion of the Residential Living operating budget is still set aside for bond repayments, which extend through FY2036.

On a smaller scale, the Student Union Building budget also covers personnel, operating costs such as utilities, and insurance. Funds are also included to cover general maintenance of this building.

The Recreation Center budget is continued at a level below the previous year since student enrollment has decreased. Utility costs are a major component in the operating budget for this area, and the student employment costs are also included to help staff the facility.

The total FY2026 Auxiliary budget increases over \$1,126,000 from FY2025. This is a 2.2% increase, which reflects higher residence halls rates and the increase in the Student Union fee needed to offset increases in food costs, salaries, and the MOSERS pension plan.

## **FY2026 AUXILIARY REVENUE BY CATEGORY**

### **RESIDENCE HALLS**

Room and Board \$15,923,000

This projection is based on the expected occupancy rate for residence halls and apartments. Spring occupancy is historically 91% of the fall semester and summer income is projected to return to typical levels. This category also includes income from purchase of meal plans by off-campus students.

**STUDENT UNION** \$ 1,113,000

This revenue source includes the transfer of enrollment fees based on full-time equivalent (FTE) students. Total revenues are projected based on FY26 enrollment and additional income sources include rentals, bookstore, and food service commission.

**RECREATION CENTER** \$ 635,000

Funds for the operation of the Recreation Center come primarily from the transfer of enrollment fees based on FTE students. Other sources of income include rental of the facility to outside groups and faculty/staff membership fees.

**SERVICE DEPARTMENT** \$ 229,000

Certain service departments are operated as auxiliary enterprises. Currently the only operation in this category is Campus Printing Services. Revenue is projected to be down slightly for FY26.

**GRAND TOTAL AUXILIARY REVENUE** \$17,900,000

## **FISCAL YEAR 2026 RESTRICTED FUND BUDGET**

### **Executive Summary**

This budget includes funds from outside grants and other sources (state and federal) which are restricted in nature. Examples include federal programs such as McNair and Upward Bound and state-funded activities such as the Regional Professional Development Center. Due to the nature of these programs and the fact that the federal fiscal year does not match Truman's fiscal year, all revenues in this budget are estimated.

### **Projected Restricted Revenues and Expenditures**

Major activities supported through restricted funds include the following:

Upward Bound \$ 501,398

This program is part of the federal TRIO program funded by the Department of Education. It is designed to assist high school students in building the skills and motivation necessary for college success.

McNair \$ 315,696

Truman has received McNair funding since 1992. The program is designed to provide disadvantaged college students with preparation for graduate programs.

Regional Professional Development Center \$ 1,708,800

The Regional Professional Development Center is operated in conjunction with Truman's School of Business and Professional Studies. The center is funded by the Missouri Department of Elementary and Secondary Education and provides training and support to public schools in the northeast region. Any fee income generated by Regional Professional Development Center activities are restricted and must be returned to the state if not used for the program.

Congressionally Directed Community Project in the Omnibus Appropriations Act of 2022  
\$ 164,360

An award from the U.S. Department of Education to assist with the expansion of degree programs at Truman State University, particularly those associated with the Greenwood Interprofessional Autism Center.

Missouri Department of Higher Education and Workforce Development American Rescue

Plan Act Funds (ARPA) \$ 6,167,121

An award from the State of Missouri per HB3020 Section 20.785 for Truman State University for the demolition of McKinney Center, the construction and/or renovation needs for the Kirk Student Access and Success Center including related planning, design, acquisitions, project management, equipment, and start-up costs from Coronavirus State Fiscal Recovery Fund.

NSF-(S-STEM) A Scaffolded Learning Community to Increase Self-Efficacy and Persistence in STEM

\$ 68,900

This grant will support students pursuing majors in the agriculture science, biology, chemistry, and physics departments.

Pell \$ 3,710,000

Pell Grants are provided from federal funds to eligible students based on need. This amount is a projection as awards are contingent upon the number of qualifying students enrolled.

SEOG \$ 101,284

Supplemental Educational Opportunities Grants are provided from federal funds to eligible students.

Work Study \$ 310,818

The College Work-Study Program includes federal funds to support part-time student workers.

Federal TEACH Grant \$ 27,818

This grant provides up to \$4,000 to eligible undergraduate and graduate students who agree to teach specified high-need subjects at schools serving primarily disadvantaged populations for four years within eight years of graduation. This amount is a projection as awards are contingent on the number of qualifying students enrolled.

<u>Other</u>	<u>\$ 88,820</u>
--------------	------------------

There are numerous smaller grants and contracts from foundations and governmental sources designed for instruction, research, and public service activities. This includes programs supported by agencies such as Missouri Arts Council, NASA, NSF, and USDA.

## COMBINED OPERATING BUDGET SUMMARY

The combined operating budget for Fiscal Year 2026 totals \$122,699,566.

Education and General	\$ 91,634,551
Auxiliary	\$ 17,900,000
Restricted Funds	<u>\$ 13,165,015</u>
Total	\$122,699,566

Table 11 illustrates the combined operating budget distributed by type, and the Education and General budget represents 74.7% of the total.

Projected revenues are equal to the various operating budgets, and Table 12 illustrates the sources of revenue which are combined to produce the funds needed. Major sources, in descending order, are State Appropriations, Student Tuition and Fees, Grants and Contracts, Auxiliary Revenue, and Other Income.
